MAINE

AREA 45 ACRES

YORK POND

Eliot Twp., York Co., Me.
U.S.G.S. Dover East, Me. (7.5')

Fishes

Brook trout
Largemouth bass
Yellow perch

Chain pickerel
Minnows
Golden shiner

Physical Characteristics

Area - 45 acres

Maximum depth - 11 feet

Temperatures:

Surface - 80°F

8 feet - 71°F

Principal fisheries: Brook trout, largemouth bass, chain pickerel

Webber Pond is a shallow, weedy pond which is very well suited for warmwater fisheries management. Catchable size brook trout are stocked each spring to provide a seasonal fishery, but these trout cannot survive the warm water temperatures during the summer.

No public access exists to this pond, however carry-in access is permitted through a development off the York Woods Road (Rt. 91).

Surveyed - September 1960
